

Microsoft Copilot Adoption Roadmap

Integrate Copilot seamlessly within your company's Microsoft 365 ecosystem with a comprehensive two-week roadmap strategy.

Day 1:

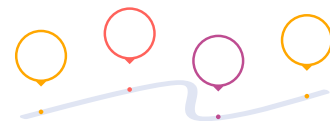

- Conduct a 2-hour meeting with the CEO or other senior executives.
- Distribute prequalifying questions prior to the meeting, covering:
 - Business applications
 - Organizational structure and personnel
 - Geographic locations
 - Industry compliance requirements
- Facilitate sessions aimed at discovering and understanding the business, identifying areas for improvement, and exploring potential AI solutions.

Day 2:

- Engage in 4-8 hour sessions with line of business managers.
- Conduct a Q&A with business leaders to gain insights into the processes and procedures that govern day-to-day operations.

"This new generation of AI will remove the drudgery of work and unleash creativity. There's an enormous opportunity for AI-powered tools to help alleviate digital debt, build AI aptitude, and empower employees."

Satya Nadella
Chairman and CEO, Microsoft

- Security
- Modern Work
- Azure

Days 3 and 4:

- Conduct data intake and summarize notes from meetings, which were shared with the client.
- Deliver a presentation to executives outlining the high-level plan, potential technological risks, ROI analysis, and the implementation timeline.

Day 5:

- Hold meetings with Technology Leaders to discuss requirements for AI and automation implementations.
- Engage in discussions regarding the timeline for implementation.

Days 6 to 14:

- Initiate the project/pilot phase, allowing the Managed Solution team to commence work on the client's objectives.
- Establish touchpoints throughout the process for questions and progress updates.
- Aggregate necessary data and ensure data cleansing and security measures are in place.
