

Discounted Microsoft Licensing with Premier Support Included

24/7/365 US-
Based Support

Top 100 Microsoft
Partners Globally

4x

Specialized Microsoft
Solution Partner

Discounted licensing plus a single team to call for Microsoft 365, Azure and more.

Buying Microsoft cloud licensing should feel simple and the support you get should be immediate. No third-party handoffs, ticket ping pong or wondering who owns the next step.

As a **Microsoft Direct Cloud Solution Provider**, Managed Solution gives you discounted licensing and a single team to support you. Instead of buying licenses in one place and chasing help somewhere else, you get a single point of contact for any licensing changes, billing questions, and technical support—backed by our 15-minute SLA, deep bench of engineers and direct access to Microsoft Premier Support included.

Make the switch today and enjoy simple licensing, real support and one partner responsible for the whole experience. See why 90% of our clients stay with us year after year.

More cloud support with no extra cost

Why partner with Managed Solution?

- Discounted licensing, never pay full price
- Rapid, 15-minute response SLA
- Microsoft Premier Support included (\$40K–\$100K+ annual value)
- 4x Microsoft Solutions Partner
- One renewal date, one invoice and one support team

How does cloud support work?

1. Email cloud.support@managedsolution.com with a description of your issue
2. Receive troubleshooting tips and ticket information within 15 minutes
3. A Microsoft-certified engineer tries to resolve the issue
4. If needed, escalations to Microsoft are handled on your behalf with immediate, direct access to their team of engineers

What does the migration process look like?

Our licensing team specializes in transferring licenses from Microsoft direct, large VARs and other CSPs. This process requires minimal effort from you, just complete the necessary paperwork.

- Zero downtime or disruption to your service
- \$0 in setup or migration fees

When should I make the switch to a new provider?

If you're licensed with Microsoft directly today, you can make the switch anytime, no need to wait for a renewal date.

For clients with existing CSP or VAR contracts, most wait for their current term to expire. But if you're dissatisfied with your current provider, we can help facilitate a transition mid-contract.

Questions to consider before switching

- What does your current licensing structure look like?
- Who is your current licensing provider?
- Is your contract month-to-month or annual?
- When is your contract up for renewal?
- How satisfied are you with the support from your current provider?
- Are your licenses optimized for your needs?
- (Non-Profits Only) Have you obtained your 501-C?

ABOUT MANAGED SOLUTION

We're technology enthusiasts with a people-first approach. For over two decades, we've witnessed the profound impact that the right technology and support can have on businesses and individuals. Success, to us, is seeing our clients, partners, and team conquer challenges to achieve their greatest goals and build lasting connections. This relentless pursuit of inspiration drives us forward, pushing us to deliver innovative solutions that empower growth and lasting success. www.managedsolution.com
